

# ATF TYPE A

Livo Automatic Transmission Fluid (ATF) is formulated with highly refined paraffinic base stocks and top quality additives. It is formulated specifically for automatic transmission power steering systems, torque converters and other application where the manufacturers specify ATF Type A.

## PRODUCT FEATURES

- \* Shear stable viscosity index improver.
- \* Excellent friction, hydrolytic, oxidation and thermal stability.
- \* Outstanding anti-wear, anti-corrosion and anti-rust properties.
- \* Excellent seal compatibility prevents overheating and transmission failure.
- \* Pour point depressants permit fluidity at low temperature.
- \* Effective Anti-foaming and detergency additives.

## APPLICATION

Livo ATF Type A provides superior protection for automatic or semi-automatic transmissions and torque converters of passenger cars, light commercial and industrial vehicles when the manufacturer specifies Type A automatic transmission fluid. It is also recommended for hydrostatic transmissions.

## TECHNICAL SPECIFICATION

Characteristics	Units	ATF Type A
Color	-	Red
Specific Gravity @ 15°C	g/mm <sup>3</sup>	0.879
Flash Point, COC	°C	187
Viscosity @ 40°C	cSt	42.3
Viscosity @ 100°C	cSt	7.4
Viscosity Index	-	158
Pour Point	°C	-42

## SPECIFICATIONS

GM TYPE A

ALLISON C-3

MERCEDES-BENZ 236.2

## TYPES OF PACKING

Containers of: 1, 5, 208 L

## SAFETY AND HANDLING

This lubricant is made of highly refined base oil and different types of additives. It does not constitute a special hazard or any toxic effects when used properly. Avoid contact with the skin. Prevent any splashing and keep away from combustible materials. Store properly under cover. Dispose off the used oil correctly.
